CHARACTERISTICS

WHAT IS THAT?

That is an effective way to make your logos, product names and other branding materials to stand out with its doming label services. Doming stickers are a more durable type of adhesive label that are commonly found on consumer products, vehicles and appliances.

PRODUCTION

We produce doming stickers according to Italian technology and work with high productive Italian machines. We have the capacity to produce both small series of doming stickers and millions of copies in very short times. If you are seeking higher quality identification graphics at affordable rates, we invite you to contact us.

ADVANTAGE

Doming stickers are UV resistant, non yellowing. Due to their extreme flexibility they can be glued to slightly rounded and contoured surfaces. In either a selective or full-coverage application, doming sticker creates a 3D image that enhances clarity and color on any product it is used on.

SEAL&POUR

This is a quite new product, which function and design is not available on the markets. The clip is suitable for a wide range of products—coffee, tea, sugar, flour, porridge, chips, muesli, just to mention a few. It is simple to use - open the lid, pour the product and then when finished close the lid.

The clip also is a perfect campaign and promotion article as you can print or engrave messages on. It's made of polypropylene plastic, which is approved for contact with food. The clip is freezer, microwave and dishwasher safe. Seal&Pour is offered in red, lime and white colors.

WINE ACCESSORIES

They fit on every bottle

Can be re-used on every bottle

They can be sold with every bottle !

What makes our wine accessories so special?

Designed for branding.

With their large surface for a logo or a message

they are an original alternative for an own wine bottle label.

After the bottle has been emptied, they will be used again and again!

Hygienic solution.

Can be cleaned with warm water.

With the use of food grade silicone, food safety is guaranteed.

Patented designs. Products that are completely new to the market.

Reinforced with stainless steel for extra solidity and high quality finish.

Available in 5 colors: white, red, grey, blue, black

WINE STOPPER

Press on top of a wine bottle, and an airtight seal will be created.

This way all flavours are preserved and

the wine can be enjoyed over a longer period of time.

DRIPRING

Place the dripping around the neck of a wine bottle.

When wine drops are spilled while pouring in a glass,

the ring catches all the drops. Preventing stains on the table cloth.
